

Denton Calvary Academy Summer Reading Program, Grades 7-8

Dear Calvary Students and Parents,

At Denton Calvary Academy, summer reading is a valuable extension of our academic program, encouraging students to keep thinking, questioning, and learning even while they are away from school. In preparation for the next school year, all secondary students will read at least one book during the summer break. Our summer reading program exists to meet two key goals.

First, we wish to help students prepare for the challenges of a new academic year. Research has shown a direct correlation between reading and academic success, and as educators we have personally witnessed the value of fostering a student's reading skills. The ability to read with fluency and good comprehension is essential in all areas of study, and reading during the summer months helps students to maintain this ability.

Second, we wish to encourage students to read for enjoyment. In order to meet this goal, we allow students to choose from a variety of summer reading selections, including adventure stories, mysteries, historical fiction novels, romances, and science fiction/fantasy novels. We hope that the wide range of available choices will lead students to discover new genres, authors, and topics that suit their individual interests, and that these discoveries will lay the foundation for a lifelong love of reading.

Please review the list of instructions for parents on the next page before allowing your child to choose a book, and contact us if you have any questions. Thank you for partnering with us to make this program successful.

Have a wonderful summer!

Denton Calvary Academy Summer Reading Program, Grades 7-8

Instructions for Parents

1. Ask your student to choose a book from the attached list for the appropriate grade level. For example, if your student will be in 7th grade next year, he or she will choose from the 7th grade list.
 - a. Your student should choose **a book that he or she has not read before.**
 - b. Remember, enjoyment is one of the goals of this program, so please allow your student to choose a book based on his or her own interests.
 - c. Note that parental guidance is suggested for certain titles on the 7th and 8th grade lists. These titles may or may not be appropriate for your child's maturity level. You know your student best, so please prayerfully consider whether you wish to allow him or her to read a PG-rated book.
 - d. If you wish, you may permit your student to read an alternate selection on a comparable difficulty level. Your reasons and rationale for doing so must be written out, signed, and stapled to your student's summer reading worksheet (#3).
2. Discuss the book with your student as he or she reads. We have provided discussion questions for each selection.
3. Instruct your student to complete the assignment and attach and complete the summer reading worksheet. **Note: Work must be the student's own, based on his or her reading. Information taken from the internet or generated by AI technology is plagiarized and will receive a zero and disciplinary action.**
4. Sign your student's worksheet to certify that he or she has read the book in its entirety. Return this sheet to your student, and instruct him or her to bring it to the first day of school in August. Teachers will collect these worksheets during English class.
5. Encourage your student to keep reading!
